From tree to paper - the paper production

Experience and learn about the exciting path from raw material to paper. How was paper made in the past and how do we produce paper today? From which raw materials is paper made and how are they processed? You can find out all this in our Paper World or on our mill tours.

Paper scooping

Making paper like 200 years ago: Scooping, couching, pressing, drying. Here you learn how to make paper and produce your own watermarked handmade paper.

For children

Do you feel like making your own paper? We will show you how to do it. Try it out and make paper like 200 years ago. Bookworms can print their own bookmarks here.

Children's birthday parties in the Paper World

We offer you a varied afternoon in our Paper World. Invite your guests to join us and get creative together!

Extracurricular learning location

As an extracurricular learning site, we offer pupils the opportunity to learn how paper is made. Accompanied by papermakers, pupils can produce their own watermarked paper and learn interesting facts about paper.

Workshops

Visit us as in the context of a workshop. In small groups we will show you how liquid materials can be turned into an excellent paper.
